

Dear Parents

The school has a haze management plan in place. This plan follows guidelines as set out by MOE.

There are two indicators that we will take reference from the reading on the NEA website: 24-hr PSI and 1-hr PM_{2.5}.

Both indicators will be used by the school in planning and managing our activities.

24-hr PSI Reading	1-hr PM_{2.5}	Actions taken
Good and Moderate ≤ 100	Normal 0 - 55	<ul style="list-style-type: none">• All activities to continue as usual.
Unhealthy 101 - 200	Elevated 56 -150	<ul style="list-style-type: none">• Outdoor physical activities will be cancelled or conducted indoors in an air-conditioned room.• Teachers to excuse students with heart and respiratory issues.• School turns on air purifiers
Very unhealthy 201 - 300	High 151-250	<ul style="list-style-type: none">• All physical activities, both indoor and outdoor, will be suspended.• Teachers monitor students with heart and respiratory issues.• School turns on air purifiers.
Hazardous ≥301	Very High Above 250	<ul style="list-style-type: none">• Same as Very Unhealthy and High.

In addition, the teachers will continue to be vigilant and look out for students who are unwell.

Thank you and stay well.
